Oranka Juice Solutions

Welcome to Oranka Fruit Juices, a renowned name in the Netherlands for decades. Based in our modern facility in Oldenzaal, we offer an extensive range of over 100 different juices and smoothies. Our selection includes fresh and organic juices, smoothies, premium fruit juice concentrates, tea, iced coffee, and protein-rich products specifically designed for the healthcare sector.

At Oranka, we believe in accessible quality for everyone. Whether you run a five-star hotel or a simpler establishment, we provide thoughtful solutions with the perfect blend of convenience, hygiene, presentation, price, and quality. Our luxurious appearance, customer-focused service, and diverse range make us the ideal partner in the beverage industry.

Our ISO 22000 certification ensures food safety and quality. This standard can also be integrated with the ISO 9001 standard for quality management systems. With our own technicians and logistics partners, we guarantee reliable delivery and service. At Oranka, everything revolves around guest satisfaction.

We understand that every location is unique, which is why we provide tailored solutions to meet your specific needs. Discover how we can surprise your guests with the finest beverages!

UBR's Oranka (Unique Buying Reasons)

Determine which features and benefits of Oranka are most important to you:

Delivery and Reliability

- Delivery is free, depending on the order amount and country.
- Always available from stock.
- More than 98% of deliveries are made as agreed.
This means: "Orders placed before 3:00 PM are delivered the next working day."
- If something does go wrong or you urgently need something, we own several vans, enabling us to act quickly.

Equipment Reliability

While issues can always be resolved, you want to minimize disruptions to your operations—especially when guests are present. Oranka has a proven track record with a minimal failure rate.

Excellent Service

- Free installations and training.
- Initial deliveries are carried out by Oranka, ensuring the safe and proper placement of all equipment/loaned materials.
- Malfunctions are guaranteed to be resolved within 48 hours.
- 95% of reported issues or questions are resolved over the phone.

Diverse Presentation Options

- Free on loan equipment.
- A variety of dispensers.
 - Machines for premix.
 - Machines for concentrate.
- Glass jars in various designs with custom-made anti-drip taps exclusively for Oranka!
- Juice Cube Concept.
- Hydration Bar (available in small and large).
- Grab & Go.
- Crushed Ice Terrine.
- Carafes.

Oranka the
natural
choice...

Naturally...

at Oranka, we focus on sustainability. Every day, we strive to achieve a healthy balance between people, animals, and the environment. Curious how we do it? Here are a few examples:

● **Products:**

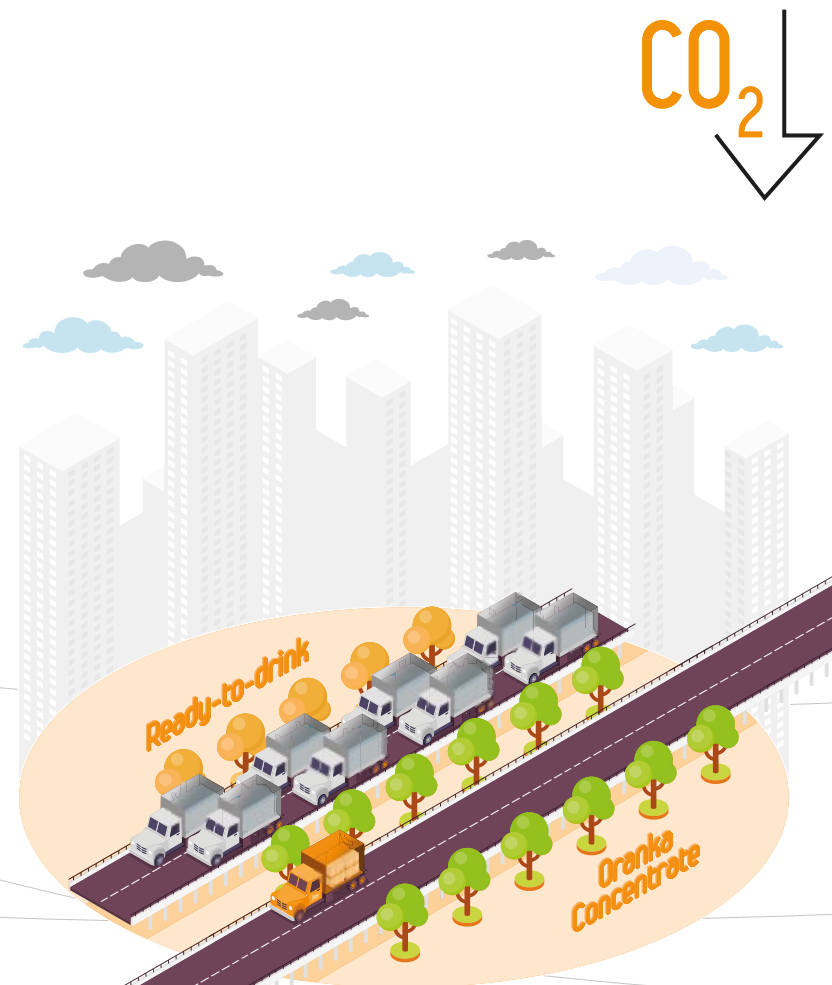

Our assortment includes a wide range of products, many of which are often a more sustainable option. For instance, using concentrates not only saves storage space in transport vehicles and packaging materials but also reduces the energy needed to cool unopened packages. Want to learn about the sustainable features of each product? Browse through this brochure and look for the recycle stamp “♻️” for more information. Need extra clarification or more details? Contact us via our website: oranka.nl!

● **Packaging:**

Thanks to our concentrates, you save significantly on packaging materials. Producing 120 ready-to-drink cartons of juice generates 6.1 kg of waste, while Oranka products generate only 0.4 kg. Additionally, we aim to ensure that all our packaging is recyclable whenever possible.

● **Transport:**

Not only is the content of our products often the more sustainable choice, but the storage space required for transporting our products is much smaller compared to freshly squeezed juices. For example, the production and distribution of 120 cartons of juice equates to the CO2 emissions of a car driving 42 kilometers. Choosing Oranka juices reduces this to just 2.1 kilometers.

Green key

Green Key is the leading international certification for sustainable businesses in the recreation, leisure, and corporate sectors. Companies with a Green Key certification do everything they can to protect the environment without compromising the comfort and quality experienced by their guests. They go above and beyond the standard legal requirements.

We are proud that several of our products have been included in the Green Key showcase. This initiative is led by Stichting Keurmerk Milieu, Veiligheid en Kwaliteit (KMKV), the Dutch organization for environmental, safety, and quality certification. Curious to know which of our products are featured in the showcase? We'd be happy to show you:

Breakfast Concepts

Our breakfast solutions are specially developed to help hotels and hospitality venues serve juices and smoothies in an efficient and attractive way. Our concentrate and premix dispensers, combined with user-friendly Smart dispensers with touchscreen, allow you to quickly and effortlessly fill glasses or carafes. Juices remain fresh in the machine for up to 30 days. With the option for personalized displays, these dispensers are ideal for both front- and back-of-house use, making it easy to serve large groups of guests during breakfast.

Want to add more experience to your buffet? The Grab & Go concept gives smoothies or juices in bottles an artisan look that fits perfectly into a premium breakfast presentation.

Looking for something eye-catching? The Juice Cube is a compact and distinctive unit that can be styled with fresh fruit for an extra fresh appearance.

The Hydration Station is also a great addition, offering a variety of surprising flavors – from hydration juices to ready-to-drink juices and smoothies. Perfect for guests who want a fresh and healthy start to their day.

The key to a successful breakfast is delivering quality products in a fast and easy way. Oranka offers various concepts to help you do just that. From elegant presentations with carafes to machines that can efficiently serve large numbers of guests. We're happy to think along with you to find the best solution for your breakfast buffet.

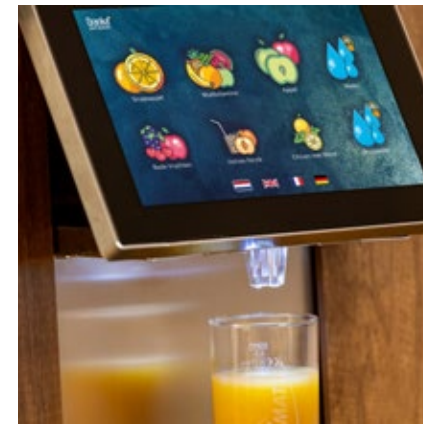

Banqueting & Conference Concepts

While the dispensers in the back office take care of all the work for you, Oranka offers a wide range of options for your presentation in front of the scenes. You can choose from a beautiful Hydration Station, unique Juice Cubes, elegant dispensers, and convenient sealable carafes, making them easy to use anywhere without spillage.

Furthermore, we have a unique Grab & Go concept with various sizes of PET bottles, optionally with your own logo. With this, you can give your fruit juices that extra touch of sophistication.

For you
and your
guests

Banqueting Concepts

Self-serve

- During a break-out session, our smoothies are often used as a refreshing pick-me-up, and our Apple-Ginger juice is a suitable addition. We also provide dispensers for ready-to-drink juices, smoothies, and concentrates, specifically designed to keep these beverages chilled and serve them with ease.
- The dispensers can be placed on a mobile cart or furniture in a hall or centrally in a breakout area.

Grab & Go

- Fill bottles yourself in the back office or opt for the convenience of Oranka's ready-to-drink packaging (Monos).

Tap Stand

- Tap Stand (Back office) 10L or 5L for filling bottles. (See image 1&2)
- Our smoothies are available in 2 different bulk packaging options, suitable for both large and small banqueting orders.

Juice Cube concept

The unique style of the Juice Cube comes into its own in hotels and conference centers. Our Juice Cube is specially designed for the 5 Liter Bag products with a faucet. These can be placed anywhere. The range includes a variety of fruit juices and smoothies.

Thanks to the compact and easily movable Juice Cubes, there are numerous possibilities to customize the presentation to your liking.

- Key features include:**
- Developed for '5 Liter Bag' products with tap.
 - Presentation as desired due to modular system.
 - The 5 liter bag can be presented unrefrigerated or with cooling elements for up to 13 hours (then refrigerated at max 7°C) and thus has a shelf life of 30 days.
 - Juice Cube V4 is available in various wood finishes. Ask our staff about the options.
 - Specially designed pull handles available.

Naturally...
our bottles are made from 100% recycled PET.

Grab & Go Concept

A unique concept that allows you to add an artisan look to a bottle of fruit juice or smoothie. Simply fill our 100% recycled PET bottles in different capacity sizes, place the safety cap on the bottle and add the label. Alternatively, you can use personalized, customized labels.

If the bottles are kept refrigerated, they will keep for at least another 5 days.

You also have the option of filling our products in biodegradable cups for presentation on crushed ice.

We offer a wide range of flavors, including high-quality fresh juices, organic juices and smoothies. As a result, different flavors are available for every season.

Hydration Station concept

This concept is a contemporary self-service solution, allowing endless variety with over 30 thirst-quenching flavors that suit the season. For presentation, we offer various types of dispensers, from a natural wooden mobile bar to elegant displays or carafes.

Hydration Juice

This 20% fruit drink is of high quality and contains only 2% sugar. It is made with natural aromas and contains no preservatives or colorants. Hydration Juice is characterized by:

- A high vitamin C content (50% of the recommended daily intake per 200 ml).
- Certain flavors include added zinc for improved vitamin C absorption (boosts the immune system).
- Concentrates can be stored unopened for up to 12 months without refrigeration (saves cooling space).

- Packaged in ½-liter concentrate, yielding 10 liters of final product (less storage space and waste).
- Can be offered unchilled for up to 9 hours (afterward stored at a maximum of 7°C) and is then fresh for 3 days.

Juices and Smoothies

This concept can also be used for Juices and Smoothies. Our Bag-in-Box range (ready-to-drink) includes more than 30 different varieties.

Naturally...

the cardboard of these packages comes from forests certified by the Forest Stewardship Council™ (FSC™), ensuring responsible forest management.

Seductive
and attractive
offer

Self-serve concept for premix

Discover our unique self-tap concept, where you can fill your own bottle or glass with delicious fruit juice or smoothie. Our dispenser stands out thanks to its illuminated display, is super easy to use and requires almost no maintenance or cleaning.

With a capacity of 2 x 10 liters per dispenser, you can always quickly and easily offer chilled juices and smoothies to your customers. Our dispenser is fully lockable and gives you a choice of over 25 different flavors. Besides Smoothies you can also choose Fresh Juices, Organic Juices and Iced Teas.

Oranka offers you the opportunity to use the dispenser(s) free of charge without a contract. All you need for installation is a power outlet.

Key features include:

- Designed for '10 Liter' products
- The 10-liter boxes are always cooled in the machine, ready for use at all times. Once you open a box, it remains fresh in the machine for 30 days.

Self-serve concept for concentrate

Discover our easy-to-use postmix concept, where you can fill your own glass with delicious fruit juice. The Bravanti dispenser stands out with its illuminated display, is incredibly simple to use, and requires minimal maintenance or cleaning.

Depending on the type of dispenser and the juice you choose, the capacity ranges from 60 liters to an impressive 348 liters of ready-to-serve product. Our dispenser is fully lockable and offers you a choice of over 50 different flavors and qualities. In addition to 100% Fruit Juices, you can also choose Nectar Juices, Hydration Juices, and Syrups.

All you need for installation is a fixed water connection and a power outlet.

Naturally...

the plastic bag is easy to separate from the fully recyclable cardboard, making our Oranka Bag-in-Box concentrates a sustainable choice. It's an easy way to make a difference, without compromising on convenience.

Oranka Tower Medium ECO

Oranka Tower Small & Medium ECO

The Oranka Tower Small ECO and Oranka Tower Medium ECO are perfect for locations that value flexibility and efficiency in a compact setup. Both models are smartly designed to make the best use of available space without compromising quality.

The Small accommodates 2 flavors and chilled water with a capacity for two 5-liter concentrate containers, while the Medium offers space for 3 flavors plus water, ideal for locations looking to provide more variety to their guests. Both models feature automatic cleaning and airtight concentrate storage, ensuring optimal hygiene and freshness. With the patented MidMix® technology, beverages are always prepared to the highest quality. The 7-inch touchscreen ensures user-friendly operation and provides the option to display branding and promotions. Additionally, these models can be optionally equipped with CO2 for serving sparkling water.

To make the dispenser mobile, the Oranka Tower and Smart Sleek/Slim Cabinet can be added, allowing you to easily relocate the setup. For extra flexibility, a water tank with a pump can be integrated into the Cabinet, making these units ideal for locations where space-saving and convenience are key.

The Oranka Tower and Smart dispensers provide the perfect solution for every location, whether you choose a compact model or want to offer more variety. All our models are available for a monthly rental fee, including the option for a kickback arrangement or a surcharge per liter of ready product. Feel free to ask our advisors for details and conditions to discover which setup best suits your situation.

Oranka Tower Small ECO

Oranka Tower Medium ECO

Oranka Tower Smart ECO

The Oranka Tower Smart ECO is designed as the ultimate solution for modern hospitality venues seeking a combination of advanced technology, versatility, and premium quality. This dispenser allows you to offer a wide range of flavors, from 2, 4, 5, or 6 flavors plus chilled water.

The concentrate storage is located below the counter, giving the unit a sleek and minimalist appearance that fits seamlessly into any venue. When paired with the Oranka Base Cabinet, it creates a seamless and professional look. The 7-inch multilingual touchscreen not only enables easy operation but also provides space for branding and promotions, making the Oranka Tower Smart ECO a communication tool to highlight your brand.

Thanks to MidMix® technology, beverages are always perfectly mixed, ensuring a consistent and high-quality taste experience. The automatic cleaning function and airtight concentrate storage further ensure optimal hygiene.

The durable design, crafted from high-quality materials such as stainless steel, delivers reliability and performance even during busy periods. This makes the Oranka Tower Smart ECO ideal for professional environments where precision, quality, and convenience are essential.

Oranka Tower Smart ECO
Oranka Tower and Smart Sleek/Slim Cabinet

● Various Front Panel Options

A premium front panel, available in scratch-resistant and decorative finishes, with various design possibilities to customize the look of your dispenser.

● Multilingual Touchscreen

The flexible, multilingual touchscreen display enables direct interaction and communication with customers, making it easy to select drinks and display promotions.

● Adjustable Dispensing Area

The dispensing area is height adjustable, allowing both glasses and carafes to be filled effortlessly.

● Perfect Mixing Results

Our patented MidMix® technology delivers perfect mixing results every time, ensuring a consistent, high-quality taste experience in every glass. This guarantees optimal flavor and consistency, so your beverages are always of top quality.

● LED-Lit Nozzle

The exclusive nozzle features sparkling LED lighting, creating a striking and professional appearance when serving drinks. Designed to meet the highest hygiene standards, the nozzle is fully self-cleaning, ensuring beverages are always safe and fresh.

Naturally...

the Oranka **ECO variants** are made from durable, high-quality materials without the use of plastic. This gives them an elegant and sustainable appearance, perfectly suited for environmentally conscious hospitality concepts, with guaranteed long-lasting performance.

Oranka Smart Sleek ECO

The Oranka Smart Sleek ECO is a compact, versatile dispenser designed for locations needing an efficient and sleek beverage station. This model offers up to 3 flavors and chilled water, with concentrate storage located beneath the counter for a minimalist and space-saving setup.

With MidMix® technology, drinks are always perfectly mixed, ensuring optimal quality and taste. The multilingual touchscreen makes operation simple while offering extensive opportunities for branding and promotions. The ECO variant is crafted from sustainable, high-quality materials and contains no plastic, making it an ideal fit for eco-friendly hospitality concepts.

An optional built-in UV water filter ensures pure and safe water by eliminating bacteria and viruses without the use of chemicals.

The Oranka Smart Sleek ECO can be paired with the Oranka Base Cabinet ECO, creating a mobile and professional setup.

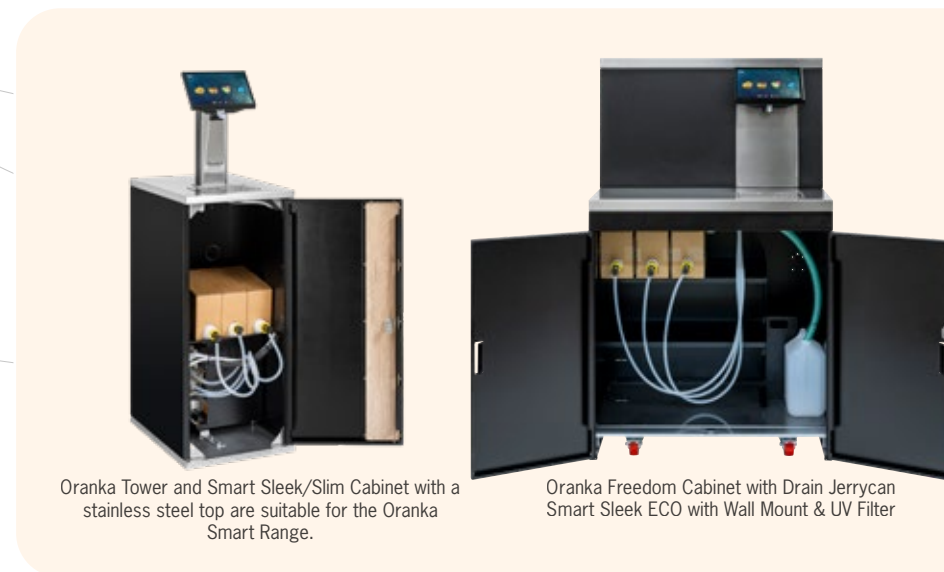

Additionally, the Freedom Cabinet can be fully customized to match the style of your location, offering a unique and tailored appearance.

Oranka Smart Sleek ECO

Oranka Smart Sleek ECO with UV-filter

Oranka Tower and Smart Sleek/Slim Cabinet with a stainless steel top are suitable for the Oranka Smart Range.

Oranka Freedom Cabinet with Drain Jerrycan Smart Sleek ECO with Wall Mount & UV Filter

Oranka Smart Sleek

The Oranka Smart Sleek offers more variety for locations that want to provide their guests with a broader selection of flavors. With options for 4 or 6 flavors plus chilled water, this dispenser is ideal for venues looking to offer multiple choices without compromising space.

As with the ECO variant, the Oranka Smart Sleek can be combined with the Oranka Tower and Smart Sleek/Slim Cabinet, making the dispenser mobile and easily deployable for banqueting and events.

With the option to include a water tank and pump, the dispenser becomes a standalone unit, integrating the concentrate packaging and technology box within the Cabinet. This adds extra flexibility and mobility, especially useful during busy events.

The Oranka Smart Sleek provides venues with versatility and a wide range of flavors, combined with a professional and robust appearance. It is the perfect choice for hospitality establishments where flexibility and a high-quality offering are essential.

MidMix III: Hygiene at a New Level!

The beverage concentrate is mixed completely airtight in a special mixing block and injected into fresh water as the finished drink is dispensed through a specially designed hygienic and tempered glass tube. This tube is immediately rinsed with fresh water: no residue, no drying out, and visible hygiene! Experience hygiene on a whole new level!

THE INNOVATIVE MIDMIX TECHNOLOGY

CONCENTRATE

WATER

DONE

Oranka Smart Refill

With its fully automated and intelligent refill system, the Oranka Refill dispenser is the ultimate independent solution for any buffet. Fresh and chilled juices are dispensed through the carafe without extra effort for the staff, while ensuring maximum hygiene.

Smart Refill

The plastic decanters are refilled fully automatically, eliminating extra work and worry for staff during busy times. Thanks to smart technology, fresh and chilled juices are always available to your guests!

Compact & Flexible

The very first carafe dispenser in the world with such modest space requirements!

Easy to clean

Automatic cleaning with each refill; the plastic carafes can be easily removed and are dishwasher safe.

Increased hygiene

The juices in the decanters are protected from dust, bacteria, virus droplets, and more, making them generally safe from external contamination.

Integrated decanters

Your guests can see the juices in the sealed plastic decanters, which increases confidence and promotes acceptance of the beverage offerings.

Flexible decoration

Choose a color scheme that perfectly matches your interior or home style.

Sparkling water

Standardly flat water is available, but you can optionally add sparkling water (CO2).

LimOranka® Lemonade concept

Sugar-Free Lemonade

Sugar has an addictive effect—your body quickly gets used to it, making it harder to make healthy choices. With sugar-free LimOranka®, your guests no longer have to choose between delicious and healthy. This lemonade is not only sugar-free but also incredibly tasty. With a choice of no fewer than four different flavors, it's a true celebration.

Dispenser Options

LimOranka® isn't just a tasty solution for your guests; it also comes with significant benefits for you. We offer various dispenser options that ensure a beautiful presentation. The dispensers are versatile, ranging from a dosing pump for small amounts of lemonade to a dosing unit that effortlessly serves 580 liters of LimOranka® without needing refills. An additional advantage of the dispensers is the guarantee of consistent quality. The dispensers are available with or without LimOranka® branding, making the product suitable for both guest use and staff distribution.

Dispensing Pump

Experience the convenience of our Oranka Dispensing Pump, directly on the jerry can. Press twice for precisely 1 liter of the final product.

LimOranka® Carafe

Serve LimOranka® in style with our LimOranka Carafe. The carafe has a capacity of 1.5 liters.

Aromasafe dispenser

Explore the versatility of the Oranka Aromasafe dispenser, available in 10 and 20-liter versions. Perfect for self-service, with or without branding.

Dosing Unit

Effortlessly prepare LimOranka® behind the scenes with our Dosing Unit. Available in 1 or 4 flavor variants and easy to connect to a water supply.

Bravanti dispenser

Enjoy the user-friendly Oranka Bravanti dispenser, available in 2 or 3 tap variants. Ideal for self-service, with or without branding.

Iced Coffee

● **The Most Delicious Iced Coffee:**

With Froziq® iced coffee, you can surprise your guests with a refreshing cold coffee. This delightful chilled beverage is perfect not only for a cozy brunch but also as an afternoon pick-me-up or a cooling drink after a delicious dinner.

● **Fun Extras:**

The great thing about Froziq® iced coffees is that you can elevate them even further by adding the most delicious toppings. Choose from an impressive selection of 8 toppings, including caramel sauce, chocolate sauce, crunchy hazelnut pieces, or chocolate chunks.

● **Dispensers:**

The dispensers from the prestigious brand Bras Milano are available in 6 and 10-liter variants, with options for single or double models.

Froziq
frozen smoothies

Frozen Smoothies

Take the ready-to-drink smoothies, which are also available for breakfast, banqueting, and similar settings, to the next level by transforming them into refreshing frozen smoothies. Perfect for selling in places like wellness environments, beach clubs, or on patios.

Process:

The great thing about this product is that the base for the frozen smoothies can be used for multiple applications. By simply adding 40 grams of powder per liter of smoothie and pouring the mixture into a slush machine, you can already create one liter of frozen smoothie. In addition to the easy process, this system also helps you save on extra purchasing and storage costs.

Fun Extras:

The fun part of the frozen smoothies is that you can take them even further by adding delicious toppings. Choose from an extensive selection of 6 toppings, including options like amarena cherries, strawberry, mango, or blueberries.

Enjoy with a
Refreshing twist!

Deli Pack: Classic Tea

The highest quality, full flavor, and perfect proportions. That's everything you want when you think of a delicious cup of tea. The tea from Deli Pack meets all these criteria, offering you a classic yet modern way to quickly enjoy a cup of tea.

Deli Pack comes in the form of tea sachets, perfect for a cup of tea (0.2 liters). The sachets are individually wrapped to ensure the aromas are perfectly preserved.

With a total of 15 different blends to choose from, including 6 organic options, Deli Pack provides you with the ultimate tea experience. What are you waiting for? Try the Deli Packs from Althaus now and enjoy the full flavor!

Naturally...

our tea assortment is packaged with care for the environment. The Deli Pack box is made from recyclable cardboard, and the tea bags are made from cellulose paper and cotton, making them fully compostable. This way, you can enjoy delicious tea in packaging that's good for the environment.

Naturally...

our Pyra Pack tea assortment is packaged with respect for nature. With sustainable packaging materials, we actively contribute to environmental protection. The sturdy box is made from recycled brown cardboard that can be printed directly, saving color and additional materials like glue and solvents. The pyramid-shaped tea bags are made from PLA, cotton, and paper, and are industrially compostable. This way, you can enjoy every cup of tea worry-free, with packaging that has minimal impact on the environment.

Pyra Pack: Tea Innovation

With Pyra Pack, you discover a modern and innovative way of drinking tea. The pyramid-shaped tea bags are not only visually appealing but also serve an important function. This shape allows the loose tea leaves to have enough space to release their full flavor, making it extra delicious!

Each Pyra Pack is pre-portioned for a generous 0.3-liter serving, perfect for a large mug or glass. With a total of 16 different blends, we offer a wide selection of high-quality teas. Whether you're a fan of green tea, vanilla rooibos, love fruit infusions, or prefer classic black tea, with our Pyra Pack assortment, you'll definitely find what you're looking for.

Naturally...

we choose a sustainable approach for our loose leaf tea. Our metal storage tin is not only recyclable through the Dual System but can also be reused multiple times, contributing to a smaller ecological footprint. The bag foil is made from an OPP composite, one of the most recyclable materials, providing an eco-friendly option for tea storage. Thanks to the combination of reusable tea tins and refill packs, we give customers the opportunity to use the packaging multiple times.

Naturally...

Pure Tea is packaged with care for the environment. The sturdy box made from fresh fiberboard can be recycled with paper waste, and the compostable pillow bag is made from PLA, organic cotton, and paper. The bag envelope is also recyclable. For loose tea, we use a reusable round tin made of metal and cardboard, suitable for the Dual System. This way, Pure Tea contributes to a greener future.

Pure Tea: Pure Enjoyment

Pure Tea, a brand we proudly stand behind, offers you the opportunity to discover the personal histories of the tea farmers and workers. This forms the basis for a unique tea experience that brings the pure pleasures of tea to life. At Pure Tea, it's about more than just tea; it's about sharing the passion and stories behind every cup.

Our collection of organic teas is a tribute to the art of tea making and consists of fourteen different "friends" from around the world. Each of them represents a unique tea blend, as unique as their namesakes. Sometimes they are bold and black, sometimes fresh and green, other times red and fruity, or soft and subtle like verbena.

At Pure Tea, we give you the freedom to choose: enjoy our handcrafted tea bags, infused with the lush aromas of our exclusive tea blends, each good for 0.4L of tea. The choice is yours. We also offer the option of loose leaf tea.

We invite you to journey with us through these flavorful stories and enjoy the diversity that Pure Tea has to offer.

Free Loan Materials ^{*1}

Bravanti 2-Smaaks

The Oranka Bravanti 2-Flavor dispenser effortlessly delivers two chilled beverages from our concentrate range, with a capacity ranging from 40 to 232 liters. Designed for high performance with low energy consumption, this dispenser is extremely energy-efficient, with approximately 0.72 kWh per day under average usage.

Aromasafe

The Oranka Aromasafe dispenser embodies the perfect combination of cooling and presentation for your beverage offerings. With a capacity of 10 or 20 liters, this refrigerated dispenser provides an efficient and energy-efficient solution, consuming only about 0.96 kWh per day under average usage.

Combisteel 10L

Oranka Combisteel 10L dispenser: stylish, efficient, with a 10-liter capacity. Perfect for cooling and presenting your beverage offerings. Choose with confidence the optimal combination with low power consumption of 1.25 kWh per day.

Bravanti 3-Smaaks

The Oranka Bravanti 3-Flavor dispenser expands your beverage offerings by serving three different chilled flavors. This unit combines an impressive capacity of 60 to 348 liters with excellent energy efficiency, consuming only approximately 0.72 kWh per day under average usage.

Brasserie

The Oranka Brasserie dispenser, a high-quality premix dispenser, impresses with its streamlined design and a capacity of 20 liters. This dispenser not only offers versatility in beverage service but also operates energy efficiently with an average daily consumption of approximately 0.52 kWh.

Combisteel 22L

Oranka Combisteel 22L dispenser: stylish, efficient, with a 22-liter capacity and advanced juice circulation. Ideal for cooling and presenting your beverage offerings. Choose with confidence for the optimal combination with low power consumption of 1.7 kWh per day.

Yorkshire

Discover the Yorkshire Dispensers in two sizes: 4 liters and 6.8 liters. These elegant glass dispensers keep your drinks cool with the built-in cooling element and present them in style. Enhance your presentation with the addition of elegant risers.

Juice Cube

The Juice Cube, made of wood and with a capacity of 5 liters (Oranka 2x5L Assortment), provides a natural look and keeps beverages cool with separate cooling elements.

Finesse

The Finesse Dispenser offers an elegant design and functionality in one, with a 6.5-liter capacity and a cooling element to serve beverages fresh.

Crushed Ice Terrine

The Crushed Ice Terrine is a stylish and functional addition for the cool presentation of beverages. With its unique design, it is the perfect way to present juices fresh.

Noir

The Noir Dispenser, a stylish plastic unit with a cooling element, keeps 6.5 liters of beverages cool. Connect units with a glass shelf for expanded presentations.

Hydration Bar ^{*2}

The Hydration Bar, crafted for style and convenience, serves as an attractive presentation station for our dispensers such as the Yorkshire, Noir, and the Finesse.
